

SHAPE's Unique Advanced Formula: Nanomolecular Dietary Supplement

Our SHAPE Nanomolecular Dietary Supplement uses only the highest quality, organic and wildcrafted raw materials. It is safe, effective and hormone-free, and we do not use any synthetic fillers, binders, corn ethanol, preservatives or color stabilizers.

Because of the pure nature of this product, some color and taste variation is normal, even within the same batch. The product is still safe and effective.

We chose each ingredient in our SHAPE Nanomolecular Dietary Supplement for a specific purpose to support you during your SHAPE ReClamed journey.

Nanomolecular Ingredient	Nutritionally Supportive Function
Lyophilized pituitary bovine gland, hypothalamus bovine gland, placenta ovine	Supports neurological and hormonal systems, maximizing metabolic function. "Lyophilized" means freeze-dried.
Sodium phosphate	Helps to balance pH, which helps with mineral balance and distribution and proper hydration.
Sodium chloride	Helps with fluid balance, constipation and water retention.
Potassium phosphate	Assists with sleep, mood, exhaustion and dizziness.
Magnesium phosphate	Decreases muscle cramping.
Calcium carbonate	Supports pituitary and thyroid function, helps eliminate belly fat, provides whole body support.
CoQ10	Supports energy production at a cellular level.
Strychnine tree seed	Aids digestion, especially after overindulgence; helps with liver/gallbladder function.
Graphite	Supports anyone with a tendency toward obesity, chronic constipation, dry/cracked skin or excessive hunger.
Club moss (spores/leaves)	Supports liver/gallbladder function; relieves gas, bloating and indigestion.
Greater celandine root	Supports gallbladder and fat metabolism.
Activated charcoal	Supports removal of toxins.
Bladderwrack	Supports thyroid, boosts metabolism.
Pokeweed root	Helps to suppress appetite and reduce cravings.
Chasteberry	Supports hormone balance and function.
Star of Bethlehem (Bach Flower Remedy)	Assists with the emotional aftereffects of trauma.
Mustard (Bach Flower Remedy)	Helpful when one feels deep gloom for unknown reasons.
Oak (Bach Flower Remedy)	Helps make one "sturdy," strong in adversity or able to let go.

Goldenrod (aerial parts)	Helps reduce pain and swelling; may have a diuretic effect; helps stop muscle spasms; provides herbal nutritional support for gout, joint pain, arthritis, eczema and other skin conditions.
Berberine root bark, Oregon grape root, Chinese goldthread root	Offers antibacterial, anti-inflammatory and immune-enhancing properties; supports blood purification, kidney function and blood sugar metabolism.
Amino acids: arginine, cysteine, leucine, proline, serine, threonine, valine	Supports energy production, metabolism, blood sugar and digestion.

What is nanomolecular nutrition?

Nanomolecular nutrition is the science of using small amounts of natural materials to activate the root of a problem and stimulate the body's inherent ability to heal — physically, mentally and emotionally.

Western science has been marching toward the discovery of increasingly smaller particles of matter for centuries — from molecules and atoms to subatomic particles, such as quarks. 'Nanomolecular' refers to the manipulation of individual molecules.

Therefore, a nanodose is literally a dose that can be measured in molecules. Nanodoses are more bioavailable, are better absorbed, can pass more easily through cell membranes and the blood-brain barrier, and may often be significantly safer and more effective than regular doses of the same substance. This is in large part due to their minute size.

You might be wondering, if the doses are so small, how can they have any effect? With nanomolecular nutrition, it's not just about the quantity; it's also about the *potency*. The process of creating nanomolecular nutritional formulas produces a final product that can be more potent than even an herbal extract. This process allows you to take less of a given substance while getting a greater benefit. In other words, if you were to take a regular dose of each of the ingredients listed above, you'd be taking 50 pills a day, but the pills wouldn't work as well.

For instance, with chasteberry, both the whole plant version and nanodose help with hormone balance, but the nanodose is likely far better absorbed and utilized. With the ingredient strychnine, the whole plant version of can cause diarrhea and vomiting, but a nanodose of strychnine can actually alleviate or prevent diarrhea and vomiting. Nanomolecular strychnine is a common remedy for food poisoning and upset stomach in children and adults.

The efficacy of nanodoses has been scientifically validated over and over again as referenced throughout the large body of evidence from controlled clinical studies, epidemiological data, clinical outcome trials and historical review of the field. Our unique, advanced SHAPE Nanomolecular Dietary Supplement, which is based on decades of research, has been proven effective across thousands of patients since 2010.

DIRECTIONS: 0.50 mL three times daily or as recommended by your healing arts practitioner. Avoid eating or drinking 15 minutes before or after taking drops.

To avoid external contamination, don't touch dropper to lips, teeth or tongue. Always keep closed when not in use.

WARNINGS: Do not use if seal is missing or broken; seek professional counsel if pregnant or nursing; keep out of reach of children.

This product does not contain wheat, yeast, gluten, eggs, dairy, soy, corn, artificial colors, flavors or toxic preservatives.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, cure, treat or prevent any disease.

Restoring your health. Revitalizing your life.
